

Pollution Control made easy..!

...Measure, Monitor, Log pH in Scrubber

...using **Global's "Scrubber pH System"**

With the increasing importance being given to **Pollution control** and the increasing emphasis placed by companies on going **GREEN**, the Wet gas Scrubber monitoring is becoming increasingly important. Not only is it important to maintain the pH of the liquid in the scrubber, it has also become a necessity to prove the scrubber maintenance to the Pollution Control authorities.

Global now offers a complete system that will meet this requirement.

The scrubber system comprises a pH Electrode in Chemical resistant RYTON™ body, a pH Transmitter located close to the electrode, a pH indicator and a Battery operated Data Logger to record the Scrubber pH readings with a Time stamp. The Data logger is a convenient stand alone Battery operated unit with 16,000 readings memory. The data logger is equipped with IR communication for transfer of logged data to any PC.

Sole Distributors for: **VAN LONDON** Est.1961  **pHoenix Co.**

Leading in pH, ORP, Ion Selective, Conductivity and Dissolved Oxygen Electrodes
