

Microprocessor pH Meter **DPH507 / DPH507 Plus**

FEATURES

- Microprocessor based design with “**Self Diagnostic Program**” -
The system checks itself, the Electrode and Temperature Sensor for faults
- Truly versatile stand alone instrument
- Display of pH and Temperature with selectable mV display for ORP Operation
- Auto / Manual Temperature Compensation
- Extremely user friendly with prompting display for easy operation
- Easy calibration from the keyboard
- Poor Electrode Condition warning
- Powerfull 5 Points Software Calibration with Automatic Buffer recognition and Buffer pH Comepensation for Temperature**
- Totally environment proof keyboard
- Calibration and Measurement of upto 100 points Data with time stored in Non-Volatile Memory Totally unaffected by Power Interruptions***
- Powerful Digital Communication on RS232C*
- Built in Real Time Clock*

* Extra Features in DPH507 Plus
